

# SHIKIGAMI

TECHNOLOGIES LLC

An SDVOSB-certified AI systems firm delivering document intelligence, federal contract technical analysis, and algorithmic infrastructure — designed, built, and deployed for public and private clients.

## CORE COMPETENCIES

- AI-powered invoice and document processing (Cypher)
- Federal SOW/RFP technical analysis and Go/No-Go scoring (Ring of Power)
- Pre-award contractor viability and risk assessment (Anor)
- Multi-agent AI infrastructure and automated operations (Sentient)
- Local, on-premise deployment — zero cloud dependency
- Custom AI systems design for regulated environments

## DIFFERENTIATORS

- SDVOSB certified — sole-source and set-aside eligible
- Active production deployment, not theoretical capability
- Zero-cloud-dependency architecture for sensitive data
- Founder-operated — direct access to the engineering team
- Puerto Rico-based small business serving federal and commercial clients
- Named, specific products — not generic AI consulting

## PAST PERFORMANCE

### Cypher — Document Intelligence Platform

**Client:** Federal contracting operation, Puerto Rico (active client, 30-location deployment)

**Scope:** AI-powered invoice OCR, automated PO matching, fraud detection, OneDrive integration, Excel reporting. Deployed locally on client hardware. Zero cloud dependency.

**Status:** Active — ongoing maintenance retainer
